

BIG BROTHER IS WATCHING

President George W. Bush

Attorney General JOHN ASHCROFT

Attorney General John Ashcroft is Head of the Department of Justice, the Chief Law Enforcement Officer of the Federal Government, and overseer of the Freedom of Information Act. He is an appointed member of the President's Cabinet, which means we didn't vote for him and we can't fire him. We can, however, change the administration that appointed him.

And so are we.
